Location of Public Car Park

A large public car park is located adjacent to the terminal building.

Parking Charges

The car parking charges are as follows:

Duration	Total Fee
0 – 6 minutes	\$0 Please proceed directly to the exit. Do not pay at the machine.
6 minutes – 3 hours	\$3
3 – 6 hours	\$4
6 – 12 hours	\$5
12 – 24 hours	\$6
Each subsequent day	\$2

The maximum length of stay is 60 Days.

Car Parking Procedures

When entering the car park the motorist will have a choice of two barrier armed entry lanes. On entering one of the entry lanes the motorist will be required to stop at the entry machine and press a button which will discharge a bar coded ticket. The motorist is required to remove this ticket from the machine and retain it. Removal of the ticket will initiate the raising of the barrier arm, which will allow the motorist to enter the car park.

Before exiting the car park with his car the motorist is required to insert the ticket into either of the two auto pay machines located alongside the entry to the baggage reclaim area. Following insertion the auto pay machine will display the car-parking fee calculated in accordance with the above schedule of charges. The motorist can pay by either NZ currency (change will be given) or credit card.

Following payment the bar coded ticket will be dispensed from the auto pay machine and the motorist will have 30 mins to exit the car park. To exit the car park the motorist is required to drive his/her car to one of the two barrier armed exit lanes and insert the ticket into the exit machine. This will then initiate the raising of the barrier arm and enable the motorist to exit the car park.

If the motorist exceeds the 30 mins allowable time limit to exit the car park after paying at the auto pay machine his ticket will not be accepted at the exit machine. The message “Extra Payment Required” will be displayed and the motorist will be required to return to the auto pay machine and re enter his ticket. The additional charge will be calculated on the additional time since the previous payment at the auto pay machine.

Lost Ticket Procedure

If the motorist loses the bar coded ticket a replacement bar coded ticket can be obtained from the auto pay machine on payment of a standard fee of \$30.

Undercover Parking
